

About Us

The company started as a portable dry mix batch plant in **March 2003**, completing several projects. Seeing the need to provide the city's fast-growing construction industry of a quality ready-mix supplier, **Quikmix Concrete, Inc.** was formally launched last September 26, 2004. From the time it was launched up to present, the company is considered as one of the major Ready-Mix Concrete (RMC) suppliers in Mindanao.

In **August 6, 2012**, the former Quikmix Concrete, Inc. formally launched its new name: **Filmix Concrete Industries, Inc.**, still a subsidiary of **JY Enterprises Incorporated**; a tried and tested supplier of ready-mix concrete cement which started in March 2003. Under its new name, it boasts of modern and efficient batching plant facilities continuing eminent service to all its clients.

As a subsidiary, it enjoys the synergized management, financial and logistical strength of JY Enterprises Incorporated, which is a four (4) decade entity, engaged in logistics, heavy equipment and supply chain services for large scale multinational and local industries throughout the Island of Mindanao.

For many years, the company has delivered its services to about hundreds of clients ranging from large private construction firms involved in large infrastructure and real estate development to government contractors engaged in road development and widening.

The company is dedicated to the on-time and safe delivery of its ready-mix concrete cement through its well-maintained existing equipment & facilities of sixty-one (61) transit mixers with at least 7 cement cubic maximum capacity. The fleet operates on a twenty-four (24) hour basis.

The company strategically established its batching plant located at Makar Highway, Labangal, General Santos City which allows it to have a quick access to various locations through its accessibility. To satisfy the company's mission, Filmix Concrete Industries Inc. started expanding to other neighboring cities and areas. At present it has branches in *Barrio 2, Koronadal City; Maa, Davao City; Brgy. San Agustin, Digos City; Buenavista, Agusan del Norte, and Brgy. Bulua, Cagayan de Oro City.*

Vision

"To be the leading provider of quality ready mix concrete and precast concrete products in the Philippines."

Mission

Superior Customer Service

We understand that customers are the reason for our company's existence. Hence, we are fully committed to provide products and services that exceed your expectations through on time service delivery, superior ready-mix concrete quality, and precast concrete items.

Investment to Technology

Situated in a city of robust economic growth, the company will continually invest in modern equipment and technology to effectively meet the growing needs of the region's infrastructure development.

Values

Quality/Excellence

We give nothing less but our very best in everything that we do.

Result Oriented

We make things happen.

Customer Satisfaction

Your satisfaction is our primary concern.

Teamwork/Synergy

Great things are accomplished because our company moves as one.

Integrity

We uphold high ethical standards in all business transactions we do.

Loyalty

We value people of commitment.

GUARANTEED PREMIUM QUALITY

Facilities and Equipment

Concrete Mixing Plant

Filmix Concrete Industries, Inc. uses two types of batching plant, PAN MIXER TYPE CONCRETE MIXING PLANT and HZS50 MOBILE CONCRETE MIXING PLANT (WET MIX) has cement silos placed in every Batching Plant location.

Filmix Concrete Batch Plant
Espina, Labangal, General Santos City

Batching Plant Control Room

The batching plant control room, where all the controls of the whole plant are located, is situated inside the batching plant complex.

The equipment inside the control room enables manual and/or automatic control of RMC Design Mix according to specific weight of: aggregates, cement and water elements to generate excellent concrete quality.

Transit Mixer Trucks

Filmix Concrete Industries, Inc. operates twenty-five units (25) transit mixers with each unit having an 8 to 10 cubic capacity.

The fleet operates on a 24-hour basis with a full-time maintenance team.

Bulk Cement Trailer Truck

JY Enterprises Inc (JYEI) primarily provides Filmix Concrete Industries, Inc. equipment support through providing cement bulk trucks to quickly refill its cement Silos.

JYEI has twenty-five (25) cement bulk trucks ready for dispatch to back up Filmix operations and other customers.

GUARANTEED PREMIUM QUALITY

Concrete Pump (Truck Mounted)

Trailer Mounted Concrete Pump (Model: HBT60-13-132S)

Filmix Concrete Industries, Inc. operates eight (8) Truck-mounted Pumpcrete units where it can pump at least 120 cubic of cement per hour to a maximum height of 43 meters or 5 storey building and one (1) unit Trailer Mounted Concrete Pump.

Wheel Loader

Filmix Concrete Industries, Inc. has a brand new LiuGong loader unit with a bucket capacity of 2-cubic used for stock piling and feeding of aggregates.

FILMIX

GUARANTEED PREMIUM QUALITY

Laboratory Apparatus

Filmix Concrete Industries, Inc. has laboratory apparatuses to ensure ASTM-International quality standards.

Compression Machine: used to test the strength of concrete cylinder and beam samples.

Core Drilling Machine: used to core on site concrete to determine thickness determination of pavement.

Oven: used to determined moisture content of aggregates.

Sieves and Sieves vibrator are used to determine the grain size analysis of fine and coarse aggregates.

Field Density Test (FDT) Equipment to conduct field density test on soil.

Curing Ponds: where samples are stored in room temperature prior for testing.

Aggregate Stock Pile

JY Enterprises Inc provides Filmix aggregates from its two (2) sets of rock crushing plant. One is located at Espina, Labangal, General Santos City and another located in Davao City.
